

A GALE OF DEATH SWEEPED THE STATE

Savannah, Georgia, and Many Other Cities Suffer.

THE STORM KING HAD FULL SWAY.

Seven Killed and Million Dollars' Property Loss Reported From Savannah—Great Damage at Brunswick—Four Killed at That Point—The Names of the Victims—Trees Are Filled with Debris—Gunboat Monitor Was Set Afloat.

Savannah, Ga., Sept. 30.—Reports of the damage done by the storm continue to come in. Nine lives are now known to have been lost as the result of last night's cyclone, this figure covering reports received up to 3 o'clock this afternoon.

Savannah, Ga., Sept. 30.—Seven lives lost and property worth a million dollars destroyed is the record of a cyclone which swept over Savannah Tuesday. The damage to property and loss of life outside the city may be much greater than now known. Hardly a house in this city escaped without more or less damage, though there are comparatively few total wrecks.

Reports from Brunswick state that the storm was severe there and at adjacent points. Several lives were lost in that vicinity and the loss will exceed a million.

The storm struck Savannah at 11:30 a. m., and lasted until 12:15 p. m. It came almost unexpected. A blow of thirty miles an hour was looked for, but the one that came was of such violence that the weather bureau's instruments were blown out of working order after registering a wind velocity of sixty-six miles an hour. It is estimated that the wind blew eighty miles or more an hour before the storm ceased.

Damage to the shipping will be great. Vessels were torn from their moorings, and drifted into the marshes, and one vessel, the Norwegian bark Rosa Neos, turned bottom upwards in mid-stream of the Savannah river.

While full reports on the loss to shipping cannot be secured, it can be estimated easily at \$100,000.

Loss of life so far as now known does not amount to as much as it is thought it will when the full report of the storm damage is made. Ten persons are known to have been lost already. The sea islands are densely populated with negroes. It is feared that many of these were drowned by the high water.

Among the prominent buildings injured by the high winds are the following: City Exchange, Savannah theater, John Rourke & Sons' foundry, Savannah guano factory, Savannah pants factory, Comer Hull & Co.'s guano factory, Henry Solomon & Sons' wholesale grocery, A. S. Bacon & Sons' planing mills, Plant railway system passenger depot, Plant railway system shop, Central railway of Georgia shops, Chatham academy, Independence Presbyterian church.

Hundreds of dwellings are either in ruins or damaged. The storm was over in an hour and a half and two hours after it began the sun was shining.

LOSS HALF A MILLION.

Four Men Reported Killed at Brunswick, Georgia.

Atlanta, Ga., Sept. 30.—A disastrous hurricane swept over Brunswick and along the Georgia coast Tuesday morning.

Savannah and Charleston were badly damaged. Wind and water worked destruction, and in Brunswick the streets were filled with debris, wires, telephones and telegraph poles. Four men were killed, and the damage is estimated at \$500,000.

The city of Brunswick is badly damaged and three sunken ships are in the Brunswick harbor. The latter were blown away from their moorings and sunk by the great waves of the sea, which threatened to destroy all of Brunswick's shipping interests.

The famous old gunboat Monitor was blown away from her pier and is floating helplessly in the harbor some distance from shore. The roof of Oglethorpe Hotel, the leading hostelry of Brunswick, and other big buildings were totally or partially wrecked.

Many small houses in the suburbs were blown down and the water rushed through the streets in torrents, carrying household furniture and valuables toward the harbor.

Atlanta, Ga., Sept. 30.—Telegraphic communication was restored with Brunswick at 1 o'clock this (Wednesday) morning and authentic news of the hurricane received. Four persons were killed outright in Brunswick, as follows:

DANIELS, WILLIAM.
DAVIS, ABEL.
JEFFERSON, JOHN, and baby, all colored.

Rev. C. S. Leffin acted as the officiating clergyman. Only a few intimates were present.

WM. C. WHITNEY.

mate friends were present, it being Mr. Whitney's wish that the wedding be a quiet one, because of the recent death of Senator Henry B. Payne, of Ohio, who was the late Mrs. Whitney's father. Frederick May, the bride's brother, gave her away.

The honeymoon will be spent at Bar Harbor, because of Mr. Whitney's ill health. He went to Bar Harbor from Newport, R. I., two weeks ago. He had been suffering quite severely from rheumatism, but has improved greatly since his arrival.

Old Soldiers at Illinois State Fair.

Springfield, Ill., Sept. 30.—Old soldiers' day at the state fair was quite as cheerful as was children's day. The same clouds that hung over the town all day Monday were still in the sky Tuesday morning, and the same chill wind swept the fair ground. Many veterans visited grounds in the morning and enjoyed an informal reunion. A parade of veterans took place on the grounds at 11:30 o'clock. Twelve hundred soldiers were in line and 2,000 registered at headquarters. The afternoon was spent by the soldiers in visiting the exhibits, and in the evening they attended regimental reunions held at the statehouse, the courthouse and the city hall.

Decrease in Wheat Acreage.

Warsaw, Ind., Sept. 30.—Ten days ago it was estimated throughout a wide scope of country located in northern Missouri, southern Iowa and western Illinois there would be a decrease of at least 25 per cent in the acreage sown to wheat this fall. It is now certain that the falling off will be fully 50 per cent and it is still raining. The wet weather has begun to affect corn. That which is down is rotting and some is growing.

Cause of the Railroad Strike.

Peoria, Ill., Sept. 30.—It is stated at the headquarters of the Order of Railway Telegraphers in this city that the primary cause of the trouble on the Canadian Pacific is that the officials undertook to coerce the train dispatchers into withdrawing from the order, threatening them with discharge unless they did. This was done three months ago, and the order has not been rescinded.

Damage Wrought by Storms.

Hicksville, O., Sept. 30.—The recent heavy rains have swelled Casebeers creek, two miles south of here, to such an extent that the dam burst Tuesday morning. The country is under water for at least a mile into the back lands, and not less than \$15,000 worth of property has been destroyed. Several farmers have been compelled to use rafts in leaving their property and thousands of fowls have perished. The water is receding.

Visiting Delegations Entertained in the Tabernacle—Indiana Farmers and Railroad Men Present—Generals Speak for Gold at Council Bluffs—Other Political News.

Canton, O., Sept. 30.—Rain fell incessantly since early morning Tuesday and demonstrations on the McKinley lawn were entirely out of the question. Four of the visits announced were postponed. The soldiers from the home at Sandusky and residents of the vicinity arrived in a special train of seven coaches soon after noon. They were taken to the tabernacle, where Maj. McKinley met them. Addresses were made by Sergt. Hopkins on behalf of the soldiers and by L. H. Hull on behalf of the citizens. Mr. McKinley responded.

A special train of ten coaches brought the second delegation of the day. It started from Walkerton, Ind., and picked up railroad men in all branches of the work, farmers, mechanics and citizens in general between that point and Chicago Junction, O. The delegation was headed by Judge W. L. Penfield of Auburn, Ind.

Ex-Secretary of State John W. Foster called on Maj. McKinley during the day. In answer to a query, Mr. Foster said that Gen. Harrison will not go on the stump, as it is not in accord with the dignity of the ex-president. He added, however, that the general will make a few speeches.

Generals at Council Bluffs.

Council Bluffs, Iowa, Sept. 30.—The special train carrying Generals Alger, Howard, Sickles, Sigel, Mulholland and Stewart, Corporal Tanner and other prominent war veterans, arrived here at 7:30 Tuesday morning. Though early, probably 1,000 people surrounded the depot to greet them. A stand had been erected in front of the Grand hotel, and a monster mass-meeting was held there from 9 to 11 o'clock. Probably 10,000 people surrounded the stand during the speech-making, hundreds coming from Omaha and the adjacent country.

Toronto, Ont., Sept. 30.—Traffic on the Canadian Pacific railway is greatly retarded as a result of the operators' strike. At many stations where the operators have gone out trains are at a standstill and communication with the dispatchers is in many cases being carried on by telephone. In the eastern portions of the Ontario division there is a blockade of trains which will cause a heavy loss in the case of perishable freight.

Winnipeg, Man., Sept. 30.—The eastern division of the Canadian Pacific is completely tied up, except the main line mail trains, by the operators' strike. All operators at local points are out.

DEMONSTRATION IN HONOR OF BRYAN.

Crowds Wait in the Rain to See and Hear the Democratic Nominee—Fusion in Indiana—Populist Address Soon To Be Issued—More Political News.

New York, Sept. 30.—As early as 7 o'clock Tuesday night Tammany hall was jammed to the doors with people anxious to see and hear Candidate William J. Bryan, and the police were wrestling with the thousands outside who were demanding admission, which, when they did not get it, drove them to various stands erected at vantage points within the space of six blocks of Tammany. Soon after Mr. Bryan entered the hall a driving rainstorm started and it was not long before at least half the crowd had sought shelter. Many of them went home, but many of the others sought nearby shelter, waiting for the candidate. Very soon the stands and streets were a mass of umbrellas.

At 7:45 John W. Keller was presented as the presiding officer of the Tammany hall meeting, and he accepted the place with a brief but ringing speech on the alleged evils of the gold standard. When Mr. Keller had concluded, a stirring set of resolutions were read and adopted. After declaring the unswerving allegiance of "The democracy of New York city" to Bryan and Sewall, and voicing the denunciation of gold and the corresponding adulation of silver, they touched on state matters.

At three minutes past 8 a commotion in the rear of the stage sent a fresh buzz of excitement through the crowd, and an instant later the police plowed a narrow passageway, which revealed the figure of Mr. Bryan. On either side of him were Arthur Sewall, the vice-presidential candidate, and George Fred Williams, just nominated by three conventions for the governorship of Massachusetts. They were enthusiastically cheered. When Mr. Bryan had finished his speech he showed signs of exhaustion. Mr. Sewall was introduced, and while many of the audience were leaving, made a few remarks of thanks for the reception.

The large crowd outside the hall seemed to think that Mr. Bryan, notwithstanding the elements, would not depart from Tammany hall without making an address, however brief, and they bravely stood their ground till it was about 9:30 o'clock, when he appeared. As soon as the crowd caught sight of Mr. Bryan a mighty shout went up, umbrellas were frantically waved and cheer after cheer was given the candidate. Mr. Bryan, however, had made up his mind to make no remarks, a simple acknowledgment of the greeting by taking off his hat to the cheering crowd, after which he crossed the hall to the west stand and repeated the bowing, and was given another ovation. After this he and Mr. Sewall were led to their carriages and driven to the Union Square stands. After that Mr. Bryan went to his hotel and at midnight left for the south. He will speak ten times in western Maryland and West Virginia in the next three days.

FUSION WINS IN INDIANA.

Populist Committee Decides to Unite Forces With Silver Democrats.

Indianapolis, Ind., Sept. 30.—The populist committee met in this city Tuesday to consider the question of fusion with the democrats, and, having been in session all day, adjourned sine die after adopting the following resolution: "Resolved, by the committee of thirteen on the matter of electors of the populist party, in order to close our ranks and unite our forces in the state of Indiana in securing the election of our nominee for president, W. J. Bryan, and do full justice to our vice-presidential nominee, Thomas E. Watson. That we nominate five populist electors and ten democratic electors, and certify to the same as the electors that shall be placed on the populist party state ticket of Indiana."

Populist Address.

Washington, Sept. 30.—It is understood that Chairman Butler and Secretary Edgerton have prepared an address to the American people on behalf of the Populist national committee, setting forth the position of the Populist party in the present campaign. So far as can be learned the document will state officially the attitude of the Populist party in regard to Mr. Bryan, will detail the reasons for and the circumstances attending his nomination, and appeal to the members of the party in all parts of the country to allow nothing to stand in the way of their giving the presidential candidate their loyal and undivided support.

Gov. Altgeld at Aurora.

Aurora, Ill., Sept. 30.—In spite of a heavy downpour of rain, which began early in the evening, 2,000 persons, an audience that was only limited by the capacity of the hall, crowded into the opera house Tuesday night to listen to Gov. Altgeld. A. L. Maxwell and Gen. Orendorff also made short addresses.

Socialists are Routed.

Detroit, Mich., Sept. 30.—Tuesday's session of the cigar makers witnessed a lively fight, the occasion being the seating of Delegate David Harwoodinger

from New York. Objection was raised to him on the ground that he was not actively engaged at his trade, but it soon dropped out in the debate which followed that the socialists objected to him because of his anti-socialist tendencies. The delegate was finally seated, his opponents having only about sixty of the 245 delegates present.

ARMENIANS SUFFER SEVERELY.

500 Unfortunates are Saved, Now Face Starvation in France.

Marseilles, Sept. 30.—There exists a condition of affairs in this city at present which seems to be a disgrace to Europe and to the Armenian associations generally throughout the world. Subsisting upon government, municipal or private charity here are 500 unfortunate Armenians, men, women and children, young and old, healthy and sick, who have succeeded in escaping from the massacres at Constantinople and who were one and all buoyed up by the hope, on landing here, of being able, eventually, to reach the land of freedom, the United States. But weeks have elapsed and nothing definite appears to have been done for their relief, much less toward finding them homes, by any of the many associations for the relief of suffering Armenians which have been organized in England and America.

Laws Prohibit Their Landing.

Washington, Sept. 30.—The attention of Commissioner Stump of the immigration bureau was called to the movement looking to the colonization in this country of Armenian refugees. Mr. Stump said that Secretary Carlisle and himself had been fully advised of such a movement, and various appeals had been made asking for the co-operation of the government in furnishing these stricken people an asylum in the United States. But while the sympathies of all good persons must be aroused in their behalf, the officers of the government must enforce the laws as they exist. The law on the subject strictly prohibits the landing in this country of all persons likely to become a public charge, and also "of any person whose ticket or passage is paid for with the money of another, or who is assisted by others to come."

Double Tragedy Is Enacted at Sandwich, Ill.

Sandwich, Ill., Sept. 30.—Peter Hines shot and instantly killed Perry Ferguson and mortally wounded his own wife at Perry Ferguson's home, about two miles east of Plano Monday evening at 8 p. m.

Mr. Hines, on returning to his home and finding Mrs. Hines absent, and suspecting her whereabouts, went to Mr. Ferguson's house and discovered his wife and Mr. Ferguson alone in the house. He immediately shot Mr. Ferguson, severing the great jugular vein, and killing him almost instantly.

Hines then followed his wife, who had run into an adjoining room, told her that she would have to die and fired his revolver at her, the bullet lodging in her left lung. Hines immediately went to Plano and gave himself up to the officers.

Prohibitionists Hopeful.

Pittsburg, Pa., Sept. 30.—Joshua Levering, prohibition candidate for president, arrived in Pittsburg Tuesday morning and opened the campaign for the prohibitionists of Pennsylvania, at a meeting at Carnegie hall, Allegheny, at night. Notwithstanding the free silver defection, Mr. Levering thought the prohibitionists would poll 30,000 more votes than in 1892.

Minneapolis, Minn., Sept. 30.—The millers took the fourth game in the Detroit Free Press series Tuesday before an attendance of 3,500 people. Damann's wildness being largely responsible for the loss of the contest. Score: Minneapolis 2 0 5 0 0 0 0 0 7

It is expected the convention will finish its work in one day.

SHIP WENT DOWN OFF MILWAUKEE

Four Sailors Lose Their Lives Early This Morning.

BARGE SUMATRA WRECKED BY WAVES.

Boat Was Heavily Loaded with Railroad Iron, and the Men Had To Work at the Pumps All Day Yesterday—Finally, the Craft Got Into the Trough of the Sea, and Foundered—State Specials.

Milwaukee, Wis., Sept. 30.—[Special]—Lake Michigan, lashed to fury by a howling gale, claimed a ship and four human lives early this morning. The dead:

BURNSTED, ARTHUR, sailor, lived at the West Bay City.
HEMMER, CHARLES, sailor, lived at West Bay City, Mich.
PATTERSON, PATRICK, sailor, West Bay City.
ANDERSON, PETER, sailor, West Bay City.

The rescued are:
JOHNSON, CHARLES, Captain of the boat, West Bay City.
BURRICK, JOHN, mate of the boat, West Bay City.
PIERSON, IRA, cook of the boat, West Bay City.

The wrecked vessel was the Sumatra. She was laden with railroad iron for Milwaukee, and was in tow of the steamer W. B. Arnold. Her cargo was a heavy one. Her master, Captain Charles Johnson says that she was leaking a good deal yesterday and the crew had to work at pumps to keep the barge from filling. When South Point was passed at 2:40 o'clock this morning, the Sumatra fell into the trough of the sea. Her hatches were quickly washed off and her rails carried away. At a point three miles east of the harbor entrance she foundered and went down. Capt. Boutin, of the life saving crew says that the sea was the worst he has ever seen since he has been stationed in Milwaukee. The tug Simpson and the life saving crew rescued three men, but the others went down with the boat.

Beloit, Sept. 30.—[Special]—An immense audience was disappointed in not being able to hear Hon. "Dick" Yates discuss the political issues of the day, at the opera house last night, he being confined to his bed by illness. In his place, A. H. Will was sent by the state committee.

The Temple Quartette of Rockford, and the city band furnished the music.

May Seize Packing Houses.

Milwaukee, Wis., Sept. 30.—Health Commissioner Kempster has declared that unless the packing houses of the city cease violating the law in reference to the killing and dressing of diseased hogs he would confiscate the rendering plants and their products. He bases his stand on the investigation conducted by the United States meat inspector, who has decided that authority is given to seize any packing house in which diseased meat is rendered.

Plumbers in Session.

Milwaukee, Wis., Sept. 30.—The sessions of the United Association of Plumbers, Gas and Steamfitters Tuesday was not very prolific of results, for at the ending of the morning session the committee on laws for the association had only completed a partial report on a resolution introduced, and the balance of the time was spent in discussions.

Whitehall, Wis., Sept. 30.—The failure of H. E. Getts & Son Monday precipitated the assignment of H. E. Getts & Co., general merchandise, at Independence, to-day. Assets, \$7,000; liabilities unknown. The failures involve \$50,000.

National League Season Concluded.

Chicago, Sept. 30.—Captain Anson's dream of the Chicagos finishing in fourth place is not to be realized. It was the hope of the veteran captain and manager that the colts would take two games from Cincinnati, capture the postponed match with Cleveland and then secure the protested game with Baltimore, thus adding four victories to the list and beating out Boston for fourth place in the National league race. This is the last day on which a league game can be played, as Oct. 1 is the limit, and the "old man" will be favored by the weather if he can play off his two postponed games at Cincinnati.

Mexico, Mo., Sept. 30.—The Missouri Military academy, which was destroyed by fire here last week, when a number of students were seriously hurt, has consolidated for the term with the military academy of Culver City, Ind.

BIG LOSS BY FIRE AT EVANSVILLE

A Blaze That Will Cost \$30,000
Raged Last Night.

AND INCENDIARY ORIGIN IS
SUSPECTED.

In All Thirteen Business Buildings
Were Destroyed, Together with
Much of the Contents—Very Little
Insurance on the Property—South-
East Portion of Main Street Is
Wiped Out—Help Was Sent From
This City.

Evansville, Sept. 30.—A fire sup-
posed to be incendiary broke out at
9 o'clock last night in Spoor's livery
barn and before it was under control
thirteen business buildings were de-
stroyed. The entire southeast of
Main street between First and Mad-
ison, was wiped out, except a tenement
house and the dry goods store of
Cummings & Clark.

The loss is estimated at between
\$30,000 and \$35,000, with very little
insurance. The burned buildings
were all frame, but they were sub-
stantial and occupied by all business
firms. Among the losers are the fol-
lowing:

Simon block.....	\$2,500
Slawson block.....	2,500
Eager cigar factory.....	2,500
Campbell's block.....	2,000
Smith block.....	2,500
Bronson block.....	3,000
Hedix, tailor.....	2,500
Hartshorn bicycle repair shop.....	300
Fairfield block.....	600
Ozide block.....	3,000
Mrs. B. H. Winston, three residences.....	2,500

The Occupants of Buildings.

The occupants of the burned build-
ings were: Platted, shoe shop; Dann,
bicycle repair shop; VanPatten, bar-
ber shop; Bostwick & Voels, tailors;
Bucklin, fancy goods; Seoville Bros.,
elgar manufacturers; Campbell & Son,
meat market; Emery & Searles, gro-
ceries, and offices of Drs. C. M. Smith
& son.

Several residences and many out-
buildings were also a prey to the
flames. A strong northwest wind was
blowing and the local fire department
was unable to do much. Assistance
was asked from Madison and Janes-
ville.

The Ozide building was used for
school purposes. The fire was stopped
at the Cummings' elevator, which is
protected by a stone wall, which
saved the entire city from being
wiped out. Many of the persons
burned out lost stocks and other
property on which little insurance
was carried. The fire was under con-
trol at midnight.

Help Sent From Here

Chief Spencer was notified of the
fire by a telegram asking for help,
which arrived here at 9:20 o'clock.
The 6-6 signal was struck, and the
engine and a hose wagon were loaded
on a C. & N. W. special which left at
10:15 o'clock. Engineer Coughlin and
Conductor M. E. Lewis were in charge
of the train and the trip was made in
twenty-six minutes. The fire was un-
der control by the time the Janesville
men arrived, but the Bower City "fire
lads" were received with cheers. The
engine was unloaded, and put to work,
however, wetting down the ruins.

Madison also sent an engine and a
squad of men, but the Capital City ap-
paratus was not used.

The Janesville men returned home
at 3 o'clock, wet to the skin.

Cummings & Clark, the dry goods
dealers, are both Janesville men, and
their many Janesville friends will con-
gratulate them that their loss was not
heavier.

FIRE ALARM WIRES MIXED UP
City Electrician Klein Had a Tough Job
Last Night.

City Engineer Henry Klein had two
and a half hours of hard and dis-
agreeable work early this morning.
He had just returned from Evans-
ville when the tower bell began to
ring. As the blows were of a vary-
ing nature he realized that a broken
wire was responsible and started out
to find and repair the break. It was
a tough job but after working from
3:30 until 6 o'clock in the driving
rain, the work was finally completed.
Electrician Klein was soaking wet
and tired out when he flashed as he
had been on active duty from 9:30
last night when the Evansville call
came until 6 o'clock this morning.

THE GREEN GOODS MAN TONIGHT

Laugh Provoking Farce Comedy Is To Be
Seen This Evening.

"A Green Goods Man" is the title of
the laughter provoking farce which
will be presented by W. E. Gorman's
excellent company of comedians at
Myers Grand one night only, this even-
ing. The play derives its title from
the notorious green goods game which
is cleverly exposed in a satirical man-
ner. In fact all the incidents are
handled in such a way as to provoke
laughter, which is the predominating
feature of the performance. From the
time the curtain rises on the first act,
showing a well known Bowery (New
York) saloon with the thieving bar-
tender, who tells of his love to his
employer's daughter, and answers her
objections to his being in her father's
employ in these words, "Say that you
love me, Etelka, and in less
than six weeks I'll have
your father working for me,"
to the fall of the curtain on Taylor's
Hotel, in Jersey City (the green goods
headquarters) in the last act, the fun
is incessant. The comedy contains
many bright lines and savings
and the action of the incidents and
scenes is rapid and follows a one
after the other; one laugh is succeeded
by another, checked only by the in-
terpolation of bright and catchy music
new songs, dances, medleys and
specialties, with which the play (as
is customary farce comedy) abounds.
The fun is clean and wholesome and
devoid of all objectionable and ques-
tionable sayings. Bring your wives
and sweethearts and enjoy their
smiling faces the contentment that
comes only in having given and re-
ceived an enjoyable evening's enter-
tainment.

has at last found a word of praise for General
Doe. Officer Hogan has everything in readiness
to start the outfit off. The plant will be left
in charge of its principal owner, John Slightam-
so it will be in good free silver hands."

Knowing that the Flip-Flop was in
close communication with the state
mad house, The Gazette telegraphed
to Madison this morning to find out
the truth of the matter. The answer
was as follows:

Madison, Wis., Sept. 30.—[Special]
—Gold advocates are not received at
the State Insane Asylum at Mendota,
as the fact that they believe in the
gold standard is taken as conclusive
evidence that they are of sound mind.
Free silverites are received without
question, however, and all the in-
mates of the state institution are free
silver men. A straw vote taken among
the inmates shows that all the crazy
people believe in free silver, their
being no ballot cast for gold."

The Gazette would therefore warn
Officer Hogan and the Flip-Flop not to
get to close to Mendota, as free silver
theorists do not have to be examined
before they are locked up.

NASBY'S OLD STORY ABOUT THE SILVER

FAVORED A "LEATHER" CUR-
RENCY AT THAT TIME.

Now That History Is Repeating Itself,
the Famous Humorist's Article
Written in 1878, Is Timely—How
Bascom Would Get Around Depre-
ciated Money.

Previous to the passage of the
Bland-Allison act, in 1878, the bullion
value of a silver dollar was as high as
\$1.05. The market value was depre-
ciating, and a dollar in bullion was
worth only about 92 cents at the time
of the passage of the act mentioned.
That act provided for the compulsory
purchase by the government of silver
enough to coin either \$2,000,000 or
\$4,000,000, as might be required. It
was anticipated by the silverites that
the market price would go back to the
\$1 mark. Others, of course, held that,
as the supply increased, the bullion
value would go down. As history is
repeating itself in the present cam-
paign, the following extracts from a
letter written by Petroleum V. Nasby,
the famous war correspondent and
humorist, under date of January 22,
1874, from the Confederate X Roads,
giving his views on silver, is of inter-
est at the present time:

Favored a Leather Currency.

"Wat is a dunsseer?"

"A dunsseer," said I, assuming the
look of Dan'l Webster, "is a man who
kin pay his debt with nothin'—a man
wich kin get authin with nothin'."

"The Corners, then, is full of duns-
seers," he remarkt, bitterly, casting
a casual glance at his slate, wich was
jist full enuff to turn over and begin
on tother side.

But he hezn't any uv the science uv
it. I wuz arguoin with him the other
day in favor uv my noshun of a leath-
er currency, though I told him that
silver was much the same thing, and,
for example I wud asoom that silver
wuz to be the currency uv the fucher.

"Now, don't you see, Bascom, that
if I hed twict ez much money, I could
buy twict as much whakey, and pay
fur it?"

"How much is twice nothin'?" wuz
the unfeelin' answer of the tyrant who
holds the destinies uv the Corners in
his hand. "That's what your capittle
heez been ever since I know'd you."

"Parson," sed he, "I don't see what
erthly difference it's goin' to make
whether silver is currency or anything
else. How are yoo goin' to git silver
if it is made legal tender? Ef silver
wuz ez plenty ez bricks, wat hev you
got to git any uv it with?"

Depreciated Currency and "Likker."

"Troo, G. W.," was my answer;
"but can't you see that to hev silver
wood releev the datter class? Even
now a'ore it is legal tender, it's only
wuth 92 cents on the dollar, and when
the country is floodid with it, it will
go still lower. Then we—or rather
sich uv us ez hev property to raise
money on—kin pay off—"

"Eggsactly so, retorts Bascom; 'you
kin pay me for the good, honest likker
uv mine, which you hev consoomed,
in coin, which is less than the dollar
you promised. All rite. But look
here—come in here, all uv yoo. I
want yoo silver men to know exactly
wat you are rushin' into."

And this feed led us into the back
room—that back room which contains
the subsistence uv the Corners. There,
in long rows, wuz Bascom's stock.
There, in barrels, piled up one on top
uv another, wuz the delishus whiskey
of Louisville, uv different ages, rangin'
from that uv two weeks to that wich
hed jist left the still, and wuz scarcely
cold yit. There it lay, and ez my
eye ranged affeckshunately over it I
felt ef I could hev the drinkin' uv all
that likker I would be content to lay
down and die when the last drop wuz
gone.

Bascom p'inted to an immense tank
wich he hed erected within a few
days, with a pipe running in from the
roof.

"I shan't raise the price uv likker
in consequence uv bein' paid for it in
a depreciated currency," sed he.

"Rane Water" Remedy.

I fell on Bascom's neck, in an ex-
tacy uv delite, while the others shout-
ed, "ah, for Bascom!"

"G. W.," I remarkt, while tears suf-
fused my eyes, "I never placed you
much below the angels, but this gen-
eral act has histed yoo a hundred per
cent in my estimashun. Bless you G.
W., bless you."

"But I'll tell you wat I shell do.
Do you see that tank?"

"May I ask wat that is fur? I sed.
"That tank will fill with rane wa-
ter," sed he. "The moment yoo git to
payin' me in silver, I shell take uv
them barrels jist eggsackly three and
one-fifth gallons uv likker, and fill it
with water."

"Merreful hevings!" we all ex-
claimed, "and poor likker so weak
now!"

"And when silver gets down to 75
cents on the dollar, I shell take out 25
per cent of whiskey and fill her up
with 25 per cent of water. And so on
down. Ef silver goes up I shell add
whiskey eggsackly in proporsen. In
short, my whiskey is jist agoin' to foller
currency, an nothin' shorter. Yoo fel-
lers wich work for wagis may swet,
but I won't."

"But yoo'll increase the size of your
glasses?" sez I.

"Not eny. But you may drink twice
ez many times to git the same amount
uv drink ez before, by payin' for each
drink."

And Bascom stalked hawtly back
and took his posishen behind his bar.
Corners For Honest Money.

There wuz coasernashun in the

Corners sich ez I have never seen.
There wuz a hurried consultashun at
the Deekin's house and I se-jected that
we emancipate ourselves from the
dominyun uv this tyrant by starting a
grocery uv own on the joint stock
pinciple, wich was agreed to, each
man agreein, to contribbit \$10 to the
capital stock wich would be enuff
to buy a bar' or two, for a beginnin'.

We wuz enthousiastic till we come
to ballotin' fur the man to keep the
place, when it wuz found instid of my
bein chosen, yoonaniously, es I
expected to be, that every man had
voted for hisself. Ez not a soul of
them wood reced, the skeem wuz
blocked right ther, and finally hed to
be abandoned and finally hed to be
abandoned and went to Bascom's
and submitted. That tyrant hez us.

Uv course we can't stand likker
dilootid in that manner. We are
willin' enuff to diloot the currency
with wich to pay for likker, but we
want our likker full strength. We
coodent help it, but that nite we
signed and sent to our representative
a remonstrance agin' the silver bill.
The Corners is now fur honest cur-
rency. Wood, O wood that we hed
some uv it.

FLIP-FLOP HARD ON THE GENERAL

ought to be sent to Mendota. No re-
publican paper ever said half as mean
a thing about the general as this item,
printed by his own paper.

WINTER'S SERIES OF SOCIALS BEGUN

Union Catholic League Members Enjoyed a Pleasant Evening Last Night

The Union Catholic League gave the opening social of the winter series at the League hall last evening, and the event was a very pleasant one. Card playing was the amusement of the first part of the evening, the prizes being won by E. J. Dunn, Miss Minerva Gateley, and Mr. and Mrs. W. T. Dooley. Auctioneer Dooley then mounted the box and sold off the lunch baskets to the highest bidders, after which supper was served. "Dutch Justices" was the title of a very amusing farce presented after the good things had been discussed. Peter E. Neuses was the judge; J. J. Cunningham and Charles Dunn were the lawyers; R. J. Dunn was the policeman; and Fred Viney, Tom Hegan, John P. Joyce and Hugh Joyce were the witnesses and prisoners.

The programme for the balance of the socials in part first of the winter's entertainments is as follows:

October 13—Dancing party.

October 27—Musical and dramatic entertainment.

November 3—Dancing party.

November 10—Card party; lady's and gentleman's prizes, consolation prizes.

November 26—Thanksgiving dance. Turkey supper.

NAMED AFTER FAURE.

A Cannibal Island Bearing the Name of the French President.

Felix Faure, the president of France, has sought popular favor more persistently and to better purpose than any other chief executive of that republic, and the latest sign that success has crowned his efforts comes from a far-off corner of the world, says an exchange. He has graciously consented to the request of the citizens of a town in the New Hebrides that he become a godfather and lend his name to their tiny municipality. Since the beginning of the new year, therefore, the town of Faure-Ville has been in existence.

The New Hebrides are among the few really cannibal islands which yet resist the efforts of missionaries. A peculiar feature about the colony on the Island of Vate is that they are a law unto themselves and answerable to no nation in particular for their conduct. They are under the protection of a naval commission composed of French and English officers.

As a result of this lack of government there are no legitimate births or marriages there. In France and her colonies it is essential that every birth be registered in due form by an officer of the government. Neither is any marriage legal unless it is solemnized by the state as well as the church. Since there is no government in official existence in these islands, therefore, the French settlers have to content themselves with simply the religious ceremonies of marriage, which, in the eyes of the law, should they return to France, would be no marriage at all.

The children born in this strange colony would also have no legal existence in France and could with great difficulty be allowed to marry or inherit property there, for they can show no "acts de naissance," which is all important in that country.

Young men are already remarking as to the style of those pretty fair shoes of the A. Richardson Shoe Co's.

Three Cars Will Do Most of the Work From This On

Because of the lack of patronage, and in order to meet running expenses, the Janesville electric street car No. 3 will be housed, and three cars will cover the entire city. Since the cool weather has set in, Superintendent Cummins says, the receipts have fallen off until the management now deems it necessary to cut down expenses. This will be done by taking car No. 3 from the Milton avenue and cemetery route, and have the Forest Park car do duty over both routes, starting from the corner of Milwaukee and Main streets. This change will not affect the noon or supper hour service as car No. 3 will make those two trips.

MUSICAL-LITERARY SOCIETY MET

Plans Are Made For the Evening Year At Last Night's Session.

Members of the Musical-Literary society made plans for the winter at the meeting held at the home of Mrs. J. F. Pember last night. No program was presented, but an outline of the work to be taken up was presented and discussed. It is probable that future meetings will be held in the Y. M. C. A. auditorium.

The cost is a little more than of ordinary comforters, but how much cheaper in the end.

BRYAN ON PENSIONS.

Bryanism involves the paying of pensions in 53 cent dollars. That has been Mr. Bryan's policy from the first, however, as the files of his paper, the Omaha World-Herald show. Four years ago Mr. Bryan declared editorially:

"The next session of congress will have to wrestle with one deficiency of \$36,000,000. This is on account of pensions. The appropriation for pensions for the next year must be less than \$150,000,000. It is, therefore, easy arithmetic to perceive that the appropriation that congress must make for pensions next session must aggregate not less than \$186,000,000.

This tremendous sum would in itself be enough to run a reasonable government. One would not complain if it were an honest debt, but a large proportion is not a debt, because it was never earned by any act of patriotism or heroic service. The government is held up and despoiled of no mean portion of this, and it seems helpless to defend itself. One cannot help being curious to know how many more years it will take to exhaust the generation which feels itself injured by the war. It is safe to say that never did a generation display such remarkable longevity."

Miners Return to Work.

Alliance, Ohio, Sept. 30.—The coal operators and striking miners in the Palmyra district, a few miles north of this city, succeeded in forcing a settlement of their differences on a basis of 68½ cents per ton for mining, Tuesday afternoon, and work was resumed this morning. The result is a substantial victory for the several hundred miners concerned.

Iowa Woman Burned to Death.

Waterloo, Iowa, Sept. 30.—Mrs. D. W. McDougall was burned to death near her home, ten miles north or here, yesterday. Her clothing caught from burning brush and was entirely burned from her body. She rode in that condition in a wagon half a mile to her home.

Pugilist Killed in a Row.

Detroit, Mich., Sept. 30.—Ben Boyd, who has a local reputation as a pugilist, was fatally shot Tuesday by A. R. Currie, a saloonkeeper. Boyd had raised a row in the saloon. Currie and his barkeeper were arrested. Boyd died on the way to the hospital.

Some Reforms Necessary.
The beautiful girl spurned his professed love.
"But why am I so hateful to you?" he asked.
"You are not hateful to me," she replied. "There is simply nothing about you to attract a girl of my nature. The man who marries me must show his love by making sacrifices for me."
"I will make any that you may ask," he pleaded.
She merely laughed at him.
"The man who would have my love must reform for my sake," she said.
"But what have I to reform?" he asked.
"Nothing," she answered, promptly.
"That's just the trouble."—Chicago Post.

In Search of Information.
"Henry," said his wife, "are these political platforms made of wood, or anything of that kind?"
"What makes you ask such a foolish question as that?" said Henry.
"It isn't foolish. I've heard you myself speak of the planks in them!"
"Of course, but—why, it's too ridiculous to talk about. Why don't you know—"
"Besides," she interrupted, beginning to cry, "I heard you—say—only this—this morning that one of the candidates was—was going to—take the stump!"—Chicago Tribune.

The Ruling Passion.

The stuff that he took brings a quite painless death.

How She Is Useful.
"Oh, you may rail at woman all you wish," she exclaimed, angrily, "but you know very well man could not get along without her."
"I believe you are more or less right about that, Hannah," he returned.
"Man must have something to laugh at or he would become altogether too morose."—Chicago Post.

A True Forecast.
"What do you take me for?" exclaimed Miss Trotter, when Mr. Spudds suggested something which failed to meet her approbation.
"For better or for worse," replied the young man.

Might Be Personal.
"Why didn't the professor try to read your mind when he got you up on the stage?"

"I don't exactly know. He went into some sort of trance and announced that there was nothing to be read. I wonder if he meant to be personal?"—Chicago Post.

Three Letters.
"Tell me," said the young man, passionately, "is my answer to be spelled with three letters or two?"
"Three," said the summer girl, shyly.
"Darling!"
"That is to say it is 'nit.'"—Cincinnati Enquirer.

CLOSING MEETING OCCURS TONIGHT

GOOD TEMPLARS' SESSION IS
NEAR THE END.

Reports of Committees, Etc., the Principal Business Today—The Officers Elected Last Evening—Public Invited To Hear the Speaking and Music This Evening.

With the open meeting this evening, the session of the Sixth District Convention of the Independent Order of Good Templars will come to an end. The morning session was a busy one. The opening exercises were held at 9 o'clock this morning. The report of the committee on credentials followed. Then came the conferring of the District Lodge degree, and music preceded the recitation of District Vice Templar M. S. Kellogg. A question box was the closing feature of the morning session.

Business was resumed at 2 o'clock this afternoon, the business being the hearing of the reports of the committee on audits, reports of the committee on state of order; and the report of the committee on resolutions. A question box was scheduled to follow the reports.

At the evening session tonight, addresses will be made by W. H. Clark, grand chief Templar, and others, while Captain Cleghorn will lead the singing. All are invited to attend this meeting.

The annual reports of the officers show that seven new lodges and one temple have been organized during the year and that the order is in a flourishing condition.

HAINES WAS BRYAN'S EMPLOYER

Former Janesville Street Railway Man's Relations With the Candidate

William Jennings Bryan takes great delight in lrruping soulless corporations, particularly railroad corporations. It has been shown that he was at one time on the payroll of the Missouri Pacific railroad as an attorney, but it is not generally known that he was an all-round railroad attorney, and was connected in a similar way with other railroad enterprises.

A man who served in congress with Mr. Bryan was Charles D. Haines of the Nineteenth New York district. Haines is well known in Janesville, for he built the Janesville street railway. Mr. Haines is the president of, or the majority stockholder of a lot of small railways, and Mr. Bryan has been in his employ as an attorney for his corporations. Mr. Haines, when asked yesterday about his experience with Mr. Bryan as a corporation lawyer, said that Mr. Bryan was a personal friend, and that he did not wish to talk about the matter. Others interested in Mr. Haines' affairs, however, declared that Mr. Bryan was persistent and determined enough as a corporation lawyer but his tendency was to run things too much on the mortgage foreclosure sale plan.

BALDWIN TO MEET COMRADES.

Will Attend the Reunion of His Old Regiment at Marion, Ind.

B. H. Baldwin left this morning for Marion, Ind., where he will attend a reunion of the Fourteenth Illinois Cavalry, of which regiment he was a member during the late war. The reunion is the second one ever held, and Mr. Baldwin expects to meet old friends and comrades that he has not seen since the "late unpleasantness."

A Special Announcement.

Our large advertisement this evening is in the way of an announcement, a step that we have long contemplated and one which we fully believe to be best for both ourselves and our customers. The strictly cash system which we will adopt October 15 in our business, will place us where we can make shoe offerings such as the retail store or any other basis cannot make, and especially on the high class of goods carried by us. It will benefit the public in general in many ways, and is certainly the correct principle for a business to be conducted upon. We have no fault to find as to the volume of business which has already come to us nor to the class of that trade, but we are confident it can be increased and at the same time prove of moral value to the shoe purchasers and ourselves, therefore this means of bringing about that end. We will give better values for every dollar spent than ever before. A Richardson Shoe Co.

Republican Rally Schedule
Wednesday, Sept. 30—B. F. Dunwiddle and W. G. Wheeler, at La Prairie.
Thursday, Sept. 30—John M. Whitehead, at Lima.
Thursday, Oct. 1—John M. Whitehead and W. G. Wheeler, at Harmony.

A rousing meeting was held at Orford last evening in the town hall. Long before the hour appointed for the opening address farmers began to arrive in large numbers from all directions. At eight o'clock all available space was occupied. A goodly portion of the audience drove from a distance of from eight to ten miles. Ex-Governor W. D. Hoard was the principal speaker of the evening and as he ascended the platform he was greeted with a ringing round of applause. Gov. Hoard spoke in his usual vein, and speeches were also made by Clerk of the Court T. W. Goldin, Register of Deeds Oscar D. Rowe, County Clerk W. J. McIntyre, District Attorney W. A. Jackson, County School Superintendent David Thorne and County Treasurer T. B. A. C. Thorpe. Colonel E. O. Kimberley sang several solos. The meeting was an exceptionally enthusiastic one. B. F. Dunwiddle and William G. Wheeler will speak at the La Prairie town hall this evening, while John M. Whitehead will speak at Lima.

T. H. Drummond Tells About His Minnesota Trip—Saw Vote Taken.

Thomas H. Drummond who has been spending the past two weeks in the vicinity of Jackson, Minn., arrived home this morning. Mr. Drummond says that the farmers have no reason to complain on account of poor crops, but that the majority of them want a protection tariff as well. On the train on which Mr. Drummond returned a straw vote was taken. It was the same old story—McKinley forty-four and Bryan four, while four refused to vote.

Diphtheria Claims Thirteen Year Old Volney Groshong's Life.

Diphtheria has claimed another member of the Groshong family, at Clinton, making the third one that has died. The last victim was a boy named Volney, aged thirteen years, and he died at the home of Dr. Townsend. For some weeks he had been sick, and the doctor thought him to be on the mend, but he was taken with spasms and in a few hours death came to his relief.

Smoked Before the King.

Li Hung Chang seems to be but a slight respecter of court etiquette, for, we are told, he absolutely broke down the rule of Belgian court etiquette by the simple process of taking out a long pipe, which, after handing it to his secretary, who filled and returned it, he smoked with infinite deliberation.

King Leopold was a good deal astonished by the occurrence, but he rose to the occasion admirably, and he at once caused cigarettes to be handed round, with the result that Li Hung soon found his position no longer one of "splendid isolation."

The Opal Superstition.

Among many women there is a superstition that opals are signs of ill omen, but Mrs. McKinley, in utter disregard of this feeling, wears them constantly, and declares that nothing but good fortune has attended her since she acquired them. Gold Bugs.

Aprompos of the term gold bug, the most remarkable gold bugs in the world are found in Central America. They belong to the genus Plusiotis, and one might easily imagine a specimen to be the work of some clever artificer in metal. The head and wing cases are brilliantly polished, with a luster of gold itself. To sight and touch they have all the seeming of metal, and it is hard to realize that the creature is a mere animal. Oddly enough, there is another species of Plusiotis from the same region, which has the appearance of being wrought in solid silver, freshly burnished. These gold and silver beetles have a market value. They are worth from \$25 to \$50 each. The finest collection of them in existence to-day is owned by Walter Rothschild, of the English banking firm. Though a young man, only 25 years of age, he has already spent \$200,000 on beetles. Every year he sends two men to Central America to gather beetles. One of the most beautiful bugs in the world is a small beetle known to science as the "blue Hoplia." Its back is an exquisite iridescent sky-blue, and the under part of its body is of a bright silver hue. The notion that it contains silver is widely entertained, and attempts have frequently been made to extract silver from it.—Buffalo Commercial.

FREE TRADE BARRED, LIKEWISE SILVER

THE AMERICAN PEOPLE ARE
AGAINST BOTH.

While Free Canadian Lumber Is Closing American Mills and Shutting Out Labor, the Purchasers of Lumber Are Not Benefited by the Process.

It is a condition, not a theory, that confronts the lumber operators of the country. In the face of the condition it is difficult to see how any voter in the lumber manufacturing states, whose interests are nearly or remotely related to the lumber industry, can satisfy himself that it would be a good policy to assist in electing the Bryan ticket on the Chicago platform. The lumber manufacturers of the northwest have made a thorough examination into the situation, and the causes which produced the present depression in the lumber trade. They find it necessary to suspend operations much earlier this fall than usual, and they have issued a circular letter explaining the cause of this action. The letter is issued by the Mississippi Valley Lumbermen's association, and it is one of the strongest and plainest documents that has appeared on the subject of the relation of trade to political conditions.

The lumbermen say that the mill-yards of the jurisdiction covered by their association which includes practically all of Minnesota and Wisconsin, are carrying a greatly increased surplus of lumber over and above the surplus of last year, which then aggregated 25 per cent of the total annual cut of the mills. It is shown that the surplus is mainly in yards in cities that are subjected to the greatest volume of competition from Canadian lumber shipments. The shipments of lumber from Canada the past year were about one billion feet, or more than double what they were before the reduction in the lumber tariff by the Wilson-Gorman tariff law.

The circular thus sums up the situation:

"The reports received by us indicate that the present conditions surrounding the lumber market, and which have imposed the necessity for shutting down a large share of the mills belonging to our members, is an oversupply of lumber for which there is no market and which cannot now be sold at the cost of production. Your board believes that this condition is primarily due to the removal of the tariff on lumber, aggravated by the present possibility of the free coinage of silver and the complete overthrow of our present financial system. We therefore believe, without regard to party, that all honorable means should be adopted to impress the fact that the questions now before the American people are not questions of party, but of business, and that the future welfare of the nation, the prosperity of the country and the resumption of the work in all manufacturing institutions, and particularly the mills of the makers of white pine lumber, is dependent upon the indorsement of a protective policy, and especially of the gold standard—the standard of all the great commercial nations of the world."

The mills will be shut down and thousands of employees will be out of work at least until the logging season opens. But the prospects are that logging during the coming winter will be reduced fully 60 per cent, so the outlook is indeed cheerless for the workers in the lumber districts.

It is not surprising, in view of the situation thus detailed, that reports from the lumber districts are that the workmen are lining up for McKinley and against free silver coinage and a continuance of the existing low-tariff policy. The lumber workers were practically solid for protection in 1894. Nothing has occurred to change their views in that regard, except a promise from the Bryan party that if they will support the popocratic ticket they can have free coinage of silver and an issue of silver dollars which will have 53 cents' worth of purchasing power in the markets where food and clothing are sold. That is not a captivating proposition to workmen.—Milwaukee Sentinel.

William McKinley Grown.
Major McKinley has grown on the country in the ten weeks since he was nominated as has no other presidential candidate in our day.

Prejudice existed against him. He was believed, wrongly, to be a man of one idea. His tariff speeches, loaded with argument, full of facts and dense with figures had raised the impression that he was a dull speaker. His just and judicious silence, prior to his nomination, exactly the silence maintained by Lincoln under like circumstances, was falsely construed to show that he was doubtful on the currency question.

How completely all this has disappeared! How wholly it has vanished! Confronted with a new issue, Major McKinley has met it courageously and triumphantly. His letter of acceptance is the best, clearest and most convincing sound money argument yet presented. His short speeches have sparked with short sentences which caught the attention and convinced the mind of the public. They have been apt, ready, eloquent and dignified. Major McKinley has said nothing below the high post he holds as the standard-bearer of a national party. He has made no partisan appeals. He has uttered no embittered invective. No class appeals have sullied the strength of his argument or the vigor of his logic. He is right. He knows he is right. With each speech he goes a little further in

convincing the country of the fact. The great cause with which he is associated is never forgotten, but he has never forgotten that until the currency question is settled all is unsettled. He is to-day the bulwark of public confidence, the prop of values and the assurance of national solvency. His attitude, his utterances and his arguments are daily giving strength, confidence and conviction of success to that great army of honest, industrious, thrifty, saving, debt-paying, home-supporting American citizens who believe in an "honest dollar and a chance to earn it."—Philadelphia Press.

Gail Hamilton and Kate Field.

With Gail Hamilton's death there has departed the one woman in this country who could be compared with Kate Field for the influence she exerted and for the forcefulness, directness and incisiveness of her style. Both women were distinctly ambitious, both were often disinterested, both felt a profound sympathy for the oppressed, either as individuals or classes; both were intensely patriotic, both were aggressive, caustic, witty, keen, regardless of consequences, but scrupulous, trustworthy, accurate and studious. No writers of their age have been more alert to matters of national importance or have more wittily satirized that which would tempt caustic pens. Both were spinners and concentrated their excellent abilities upon public life or literary work.

For the emotions of maternity they were obliged to substitute the instinct for humanity, and they did it well and conscientiously, making of themselves mothers to many rather than mothers to a few. Both enjoyed the friendship and trust of many men, though neither encouraged love in the opposite sex. Both were women of too large a comprehension not to have desired love and mourned because it never came to them in its fullness. Lacking that blessing, they entered upon brilliant and powerful lives, sinking the personal as much as possible in achievements beneficial to mankind in general and gratifying to their love of ambition. Both lived lives of rectitude. They did what they could, and it was a great deal, for it furnished the literature of their age.—Omaha World-Herald.

The Countess of Wemyss.

The Countess of Wemyss, who died the other day, was a somewhat notable figure in London's fashionable world not only for her kindness and hospitality, but for her sound common sense. A passage in her will relating to the manner in which she desired her funeral service to be conducted is distinctly interesting. It runs as follows:

"I particularly wish that no undertaker should have anything at all to do with the management beyond providing the coffin, which I desire should be made as plain as it is possible to make it. I wish the coffin to be laid on the frame of a farm cart, or lorry, covered over with a purple or some colored, not black, so called pall and drawn by four horses, led by their own drivers, and I should like to be carried to the grave by such friends, workers on the estate, as are willing to do so. I hope that blinds will not be drawn or crape worn, and that there will be as little outward sign of mourning as possible. I hope these wishes will not be looked upon as in any way eccentric. They are not so. They are simply the expressions of a feeling that pomp and expenditure in funerals are unbecoming and that death at the end of a long and happy life is more a matter of thankfulness and rejoicing than of lamentation or woe.

"Sleep after toyle, port after stormie seas,
Ease after warre, death after life,
Doe greatly please."

Lady Wemyss' wishes in regard to her funeral were carried out, though in place of the plain coffin one of polished oak, with heavy brass mountings, was provided.—Buffalo Courier.

A Craze For Gray.

There is in Paris a craze for gray, dull gray, smoke gray, yellow gray, blue gray, only gray. Combine it how and with what one pleases, a gray gown is as necessary as a silk lining. One of the prettiest is an at home toilet of gray and white, the satin skirt very full and plain but for figures of white lace applied upon it. The border has a full vest of white mousseline de soie, basques and a large cape collar with lace edging and insertion. The belt and the folded collar are white, with choux of lace. Never has lace been so much used as now. It plays a most prominent part on all gowns and hats, no matter what the material, no matter what the color. It is made into butterflies and stiffened into shape for millinery purposes. It is used to cover waistcoats when the silk may be deemed of too deep a shade. It softens and beautifies everything it touches and is most popular in the yellow shades which are so becoming to the complexion. Next to gray, blue and white are all the rage, following in the vogue of the delft ware. Blue foulards scattered over with great white bouquets are seen everywhere. The shop windows are crowded with them; the boulevards and promenades abound in them. The combination is to be found in expensive and cheap fabrics. Still its popularity has not abated one jot.—Paris Letter.

Leadville, Col., Sept. 29.—The statement that a committee of five was appointed by the miners' union Saturday night to consider the question of declaring the strike off has been both confirmed and denied by prominent members, but Secretary Dewar declared positively that the strike will not be declared off unless the full demands of the union are conceded. As Secretary Dewar is understood to be a member of the committee, much importance is credited to his statement.

BODICES AND SLEEVES.

Collars Should Be Lined With Light Material—A Taffeta Costume.

In making bodices with a high collar it should be remembered that the collar ought to be lined with either very light goods or with material of which the dye is indubitably fast, as the dampness and constant friction of the neck are very likely to make the color of the lining stain the skin. Sleeves, even when they are made in one piece, as is now often the case, are much improved by having a lining with two seams, as this admits of a cluster of plaits at the elbow, which gives more freedom of movement to the joint. All sleeves are now made close from the wrist to the middle of the upper arm, the fullness and drapery being arranged between that point and the shoulder. This drapery is left to fall in soft and natural folds and is not sustained by haircloth or other stiffening. Nevertheless if the material is very pliant and yielding the puffed part of the sleeve may have a lining of light but rather crisp silk.

The seams of the sleeve require to be notched throughout their whole length to avoid any tendency toward binding and

TAFFETA GOWN.

should be pressed flat open with a warm flatiron. The wrist, whether it be round, pointed, open or closed, should be slightly stiffened by a bias band of canvas or wigan. It may be faced inside with a bias band of silk, or the extra length may be turned up and fastened to the lining by cross stitching. This latter method keeps the sleeve thin at the wrist and avoids the clumsiness of a seam.

Sleeves of elbow length are much worn and are very pretty and effective. They are usually much draped and trimmed and are finished by a frill of lace or chiffon.

The illustration shows a costume of blue and white glaze taffeta, with diagonal stripes of a darker blue. The bodice is plain. The bodice of antique lace has a pointed basque and opens over a plastron, back and front, of white, plaited gauze ornamented with bars of blue taffeta. The large collar of lace falls over a straight, high collar of blue taffeta. The denim bouffant sleeves, like the skirt, have ruffles of white lace along the outside of the puff and are cut in squares at the wrist over a lace frill.

JUDIC CHOLLET.

FASHIONABLE CUSHIONS.

A Wide Variety of Colors, Materials and Designs.

The long summer days have afforded ample time for the accomplishment of all sorts of fancy work and embroidery, and, among other things, of decorative cushion covers. The oriental fancy for an abundance of pillows and cushions about the living rooms still continues, and great pains are taken to insure a wide variety of color, material and design. There are delft patterns embroidered in blue on white linen or canvas; or in white on blue denim, the windmill being a favorite subject; there are cushion covers having a lace applique over color; there are squares in Russian or Roumanian embroidery on a ground of heavy cream linen—in fact, there are all sorts of ornamental effects, the bolder being the better, as fineness and delicacy are more suited to table linen and similar articles than to the covering of cushions which are to form part of the general decoration of a room. Fine outlining and miniature spray embroidery, no matter how beautifully done, are not so satisfactory as heavy applications and other designs in which the pattern is large enough to show well both its color and

SILK TOILET.

form at a distance. As for the filling of the cushions, there is room for variety there also. The down pillows ordinarily seen are hardly full enough, and down is not sufficiently elastic to be really the most comfortable filling. Good feathers are better for the larger proportion of a set of cushions. Curled hair, well picked apart, is substantial and satisfactory, and even fine, soft hay may be utilized. For perfume there are the pillows made of pine or balsam fir needles and of rose petals, American Beauties and June roses being the sweetest. The petals must be thoroughly dried before they are put in the case.

Today's sketch shows a costume of broche green and mauve silk. The bodice is adorned at either side of the bodice, at the top, with a scarf of dark green satin, ending in a choux. The close sleeves are of mauve taffeta, the pointed wrists being embroidered with steel and having a frill of white lace. The draped sleeve puffs are also of mauve taffeta.

For over thirty years Dr. Pierce has used his "Favorite Prescription" as a strengthener, a purifier, a regulator. It works directly upon the delicate, distinctly feminine organs, in a natural, soothing way. It searches out the weak spots and builds them up. A woman who would understand herself should send 21 cents to the World's Dispensary, Buffalo, N. Y., for Dr. Pierce's Medical Adviser, a book of 1008 pages.

The Chicago Times-Herald says:—Webster's International Dictionary in its present form is absolute authority on everything pertaining to our language in the way of orthography, etymology, and definition. From it there is no appeal. It is perfect as human effort and scholarship can make it.—Dec. 14, 1895.

Special . Announcement.

We take pleasure in announcing to our patrons and the public in general, that on and after October 15, 1896, our business will be run on a strictly cash basis. We have made arrangements under this system whereby we can make the most liberal offers ever known in the annals of trade. Notwithstanding our reputation has always been that we are the most enterprising merchants in this section, and that at our store has always been found the best goods the market afforded at the very lowest prices.

Please do not think that we have any doubts as to your credit. We have as much confidence in our friends and customers as ever, and wish to impress this fact upon everyone, also the fact that we are not trying to see how little, but how much we can give for a dollar.

This system of doing business has passed the experimental stage and has been adopted by many of the leading merchants of the East and its success has been the means of doing much good in different ways both to customers and dealers. We have devoted much time in carefully considering this matter and go into it with the determination of giving our customers the full benefit of its numerous advantages, knowing that if you give this method a little thought, you will agree with us and thus appreciate this golden opportunity of purchasing excellent footwear for cash at prices that save you money.

Thanking you for your past patronage, we hope by future enterprise, liberality and fair dealings to merit a continuance of the same.

We are yours truly,

A. Richardson Shoe Co.

On Thursday Morning Oct. 1st

we adopt the **STRICTLY CASH PLAN** in our business. We believe from the thorough manner in which we have placed this matter before our patrons that there will be no misunderstanding about it. We expect under no circumstance to deviate from this plan. But we have an inducement for you to pay cash. We will surely save you money. We shall make prices in every department of our business a **little lower** than merchants who do a credit business can afford to make. A little saving on every Dry Goods item, A little per cent. in favor of the cash buyer. A little cash saved on every little purchase. This cash plan resolves itself into the fact, that must be apparent to every person, that merchandise can be sold cheaper for spot cash than on long time and uncertain credit. We propose to give our cash trade the benefit of these savings; and you have only to try us to prove these facts to your own satisfaction.

"A Penny Saved Is a Penny Earned"

From 5 to 10 per cent. saved is from 5 to 10 per cent. earned. Careless people don't mind these little savings. Careful people do mind these little savings. We invite the patronage of all who are careful, who are saving, who are economical, who believe the purchasing power of cash is superior to the plan of long credits. Try our cash plan, you will like it.

SESSION IS OPENED.

Methodist Preachers in Conference at Freeport, Ill.

Freeport, Ill., Sept. 30.—Nearly all the ministers in the Rock River conference arrived yesterday to attend the fifty-seventh annual session of that organization of the Methodist Episcopal church. The woman question has been given its share of discussion, and the feeling is that it will be passed by a good majority.

The only work done yesterday was the session of the examining board for those who are not yet full members of the conference, and seek either deacons' or elders' orders, or admission as probationers.

The majority of the ministers attended the reunion at night, at which the Rev. T. V. E. Sweet presided, and addresses of welcome were delivered by the Rev. Charles E. Dunn, pastor of the First Presbyterian church, and Dr. S. H. Aurand, the Rev. A. W. Patton responding.

This morning at 9 o'clock Bishop Andrews opened the session, and the forenoon was devoted to business. The ministers and local Grand Army men will have a demonstration Friday night.

ORGANIZING OUTLAWS

Escaped Murderer of the Meeks Family Is in the Creek Reservation.

Guthrie, Ok., Sept. 30.—Deputy Marshal F. M. Canton who is here with prisoners captured in the Osage country, says he has positive information that George Taylor, the escaped murderer of the Meeks family, is living in the mountains of the Creek reservation. He is with former Missourians and with the hiding places in that section he is safe from pursuit. Canton had him definitely located several weeks ago and was organizing to go after him, when Taylor learned of the intended raid and moved to another point. Other deputies from the section say Taylor is organizing a gang of outlaws and will become as desperate and notorious as Bill Doolin.

Michigan Fusion Now Complete.

Grand Rapids, Mich., Sept. 30.—A joint meeting of the democratic, populist, free silver and national party leaders was held here Monday night. The national party representatives agreed to withdraw their electors if permitted to name two on the union silver ticket. Their proposition was accepted and the national state committee withdrew their board of electors and the union silver men substituted two nationalists on their electoral ticket. This means, it is said, that some sixty or more stump speakers, now talking for prohibition and silver in Michigan, will hereafter keep the prohibition idea in the background and speak in favor of the union silver ticket.
